

# kaveri shirol

A passionate and self-driven Web Developer with a solid foundation in designing, building web-based applications. Skilled in JavaScript, React, and HTML CSS. Eager to apply my skills in database management and web development to contribute to innovative projects and enhance my professional expertise.

## Work Experience

### Project: Online Examination System

- User authentication system for students and administrators.
- Real-time exam timer with automatic submission upon time expiry.
- Result calculation and reporting with detailed analytics.
- Administrative dashboard for managing exams, questions, and users.
- Designed and developed the user interface for both student and admin portals.
- **Technologies Used:**
- **Frontend:** HTML, CSS, JavaScript
- **Backend:** PHP for server-side scripting.
- **Database:** MySQL for data storage and retrieval.

### Project: Netflix Clone

Developed a visually appealing Netflix-inspired web application to practice front-end development skills, showcasing the ability to design responsive and interactive web pages.

- Replicated Netflix's UI/UX with a custom homepage, navigation bar, and movie carousel.
- Implemented responsive design to ensure compatibility across devices (desktop, tablet, and mobile).

### Certifications:

- **Frontend developer:** Certified frontend developer from **Besant Technologies** in react js.
